PRODUCT DESCRIPTION

The Techno THERMO -50°C UltraGrip offers the best comfort, safety and durability in cold environments. It offers thermal insulation down to -50°C / -58°F. Techno THERMO keeps your feet dry and warm in the coldest working conditions. The boot is resistant to oils, fats, organic solvents and a variety of chemicals. The UltraGrip SR outsole offers superior safety in all conditions. Thanks to the best BASF polyurethane raw material this is the world’s most comfortable thermo boot. Lightweight, strong, flexible and with a durability 3 to 4 times longer compared to the traditional pvc and rubber boots. The superior durability offers important cost savings. The orthopedic, removable footbeds with arch support give you the comfort you deserve. Techno THERMO - 50°C UltraGrip : the best solution in cold environments. No more heavy or tired legs after a hard day’s work. Techno THERMO has the following certificates : CE, CSA, S4, S5L, SR, CI (cold insulation), FO.

ABOUT US

Techno Boots combines the quality, durability, and comfort of polyurethane boots; improving working conditions, increasing user profit and income, and offering advanced and sustainable solutions. It is founded on the mission of redefining standards in the footwear industry.

All Techno Boots models are CE certified and comply with the highest safety standards. Currently, with an annual production capacity of over half a million pairs, Techno Boots implements ISO 9001 standards and complies with rigorous health and safety regulations.

Techno Boots produces the world's most comfortable boots in Türkiye and exports them to more than 50 countries worldwide. It manufactures a complete range of polyurethane boots specifically developed for sectors such as agriculture, dairy production, food processing, slaughterhouses, commercial fishing, aquaculture, construction, mining, oil and gas, general industry, horticulture, hunting, hobbies, and cold storage.

Techno Boots are manufactured with the finest BASF polyurethane raw materials, offering extreme lightness, comfort, strength, durability, flexibility, and excellent thermal insulation.
