ABOUT US

Techno Boots combines the quality, durability, and comfort of polyurethane boots; improving working conditions, increasing user profit and income, and offering advanced and sustainable solutions. It is founded on the mission of redefining standards in the footwear industry.

All Techno Boots models are CE certified and comply with the highest safety standards. Currently, with an annual production capacity of over half a million pairs, Techno Boots implements ISO 9001 standards and complies with rigorous health and safety regulations.

Techno Boots produces the world's most comfortable boots in Türkiye and exports them to more than 50 countries worldwide. It manufactures a complete range of polyurethane boots specifically developed for sectors such as agriculture, dairy production, food processing, slaughterhouses, commercial fishing, aquaculture, construction, mining, oil and gas, general industry, horticulture, hunting, hobbies, and cold storage.

Techno Boots are manufactured with the finest BASF polyurethane raw materials, offering extreme lightness, comfort, strength, durability, flexibility, and excellent thermal insulation.
